

CONNECTING TECHNOLOGY

georgetown group
Company limited

About Georgetown

Georgetown Group Company Limited is leading Enterprise ICT Solutions Company and Management in Tanzania. In the dynamic world of Information Communication Technology, we are equipped to fulfill the most advanced demands of our customers. We aim for Total Customer Satisfaction by providing Solutions to the customer's needs.

Vision - To lead the digital transformation movement.

Mission - To develop an integrated, sustainable, and focused research tailored to improving competence in ICT industry.

Services We Offer

SUPER & EXTREMELY SOLUTIONS

We offer comprehensive solutions and cutting-edge technologies to meet customer needs. We are emerging as choicest-partner for Security Systems solutions to Telecommunication Systems, Server farms, Direct Vendor manufactured, Core Tier-1 Internet service provider, Cloud Computing, enterprise networking and High lever software developer network.

We are responsible for maintaining – and anticipating the ICT needs for—a small-large of processes and functions in order to improve operations, cut expenses, and streamline ICT management.

MANAGED ICT

- Digital & ICT Infrastructure.
- Preventive Maintenance (CSPM).
- Call Center Solutions.
- ICT Training & Consultancy.
- Supply ICT Equipments.

CONNECTIVITY

A large satellite dish antenna is mounted on a metal tower. The dish is dark and circular, with a smaller rectangular component attached to its side. The tower is made of metal and has various cables and components. The background is a sunset sky with orange and blue hues, and a city skyline is visible in the distance.

Internet Solutions,
Managed Internet for Home & Business
